COMPANY
PROFILE

BENEFITS OF USING CONCRETE BRICKS MANUFACTURED BY YAKHA

- 1. Highly durable, offering resistance to weather, wear, and tear.
- 2. Strength: They provide excellent structural strength, ensuring that the walls and buildings are solid and stable. (Average compressive strength of 14MPa to 30MPa)
- 3. Fire Resistance: Cement bricks are non-combustible, making them an excellent choice for fire-resistant construction.
- 4. Sound Insulation: Cement bricks help reduce noise due to their density, which makes them a good choice for residential or commercial buildings in noisy areas.
- 5. Ease of Construction: The uniform size and shape of cement bricks make them easier to work with during construction, which helps speed up the process.

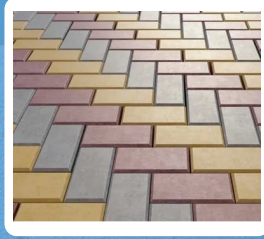

YAKHA LOGISTICS

Yakha Bricks aims to be recognized for its reliability in delivering high volumes on time. The manufacturing plant is strategically located in the Mt Hampden area, just a few kilometers from the Harare Central Business District. Sophisticated project planning and logistics co-ordination ensure that production capacity and market service capabilities are optimized.

From MD'S Desk

Thank you for taking time to read our profile and learn about Yakha Bricks. As any civil engineer will tell you; a structure is as strong as it's weakest brick. Since inception, Yakha Bricks has been investing its time and resources in building its strength of structure. Today, Yakha Bricks has come a long way making numerous remarkable contributions in the Zimbabwean construction Industry. We know that our customers have high expectations of us and we strive never to take our customers for granted.

We set ourselves apart from every other brick and paver manufacturer simply by our strong philosophy and our work culture. We are our own competition and through every project and every delivery, we set new standards for ourselves.

In the coming years, we plan to explore and expand our potential by contributing to the glorious infrastructure development of the nation.
